

Books for Collier Kids provides books for children in need, addressing one of the most important factors affecting literacy—access to books. The books are given to the children in Head Start programs and Title I schools (pre-K through second grade). Then the children take their books home—to own and cherish.

From time to time, we are asked to speak to community groups. We greatly appreciate your interest in our organization and our mission, but because of the small size of our board, we can accept only a limited number of invitations. We will review your request at our next Board meeting and get back to you promptly regarding the availability of a speaker.
